DES MÉDECINS OMNIPRATICIENS/MÉDECINS DE FAMILLE

Mission

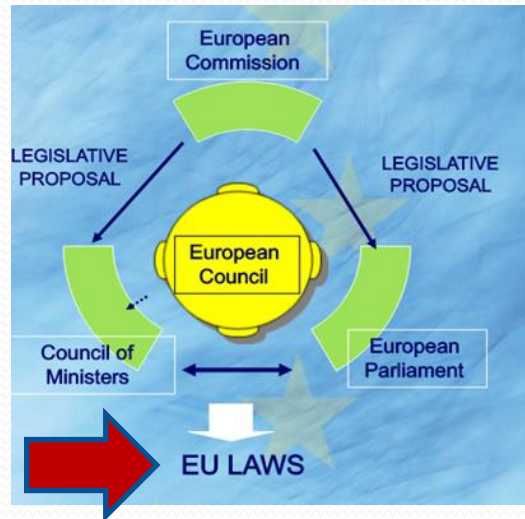

The principal objectives of UEMO are:

- to study and promote the highest standard of **training, practice** and **patient care** within the field of **general practice** throughout Europe;
- to defend the **role of general practitioners in the healthcare systems**;
- to promote the **ethical, scientific, professional, social and economic interests of European general practitioners**, and to secure their **freedom of practice** in the interest of their patients;
- to determine the **united views of the members** and to **represent** them through the appropriate channels to the relevant European authorities and international organisations;
- to work with **other European medical groupings**, such as the Standing Committee of European Doctors (CPME), to strengthen the position and unanimity of the medical profession in Europe in order to maintain the highest possible standards of education, ethics and patient care.

Among the organisations with which UEMO co-operates are the European Union of Medical Specialists (UEMS), the Permanent Working Group of European junior Doctors (PWG), the European Society of General Practice/Family Medicine, and the World Health Organization (WHO).

Since 1992, UEMO has official, **non-governmental, consultative status with the Council of Europe**.

Quali sono i Rapporti Internazionali Utili e Perché per una Associazione Professionale di Pediatri in Europa ?

Models of Child Health Appraised

(A Study of Primary Healthcare in 30 European countries)

A European Commission Horizon 2020 project on Models of Healthcare

- Models of primary care delivered to children (including urgent care)
- Delivery of care across organisational boundaries (with secondary care, social care, education etc.) including complex care, and services for child protection
- School health services, and direct access services for adolescents
- Identification of innovative measures of Quality and Outcome
- Identification of derivatives from large data sets to measure quality and outcome
- Economic and Skill Set analyses
- Ensuring Equity for all children
- Use of electronic records in child health

An External Advisory Board will validate the scientific enquiries made of country agents, and review the findings. Views of service users will be sought. There will be an active engagement and dissemination programme.

MARCH 2016

EU REPORT

European Academy of Paediatrics

AT A GLANCE: HIGHLIGHTS

European Commission adopts work programme for 2016 in the context of the EU's health programme 2014 - 2020 - The programme for the current year includes funding opportunities in priority areas, such as: health of refugees and other migrants; tackling antimicrobial resistance; support to EU countries to quickly response to health crisis; establishment of European Reference Networks, and cooperation on eHealth and Health Technology Assessment (HTA); etc. Read [more](#).

Call for applications: Call for highly specialised healthcare providers to establish European Reference Networks (ERNs). These networks will help to tackle complex or rare medical conditions that require highly specialised healthcare and a concentration of knowledge and resources. An information day will be organised in Brussels on 7 April to help candidates with the technicalities. Deadline for applications: 21 June. Read [more](#).
